

Trypanosomiasis & Leishmaniasis Symposium

The British Society for Parasitology

Novel Advances in Basic and Applied Research

Sunday, 8 to Wednesday, 11 March 2020

Granada, Spain.

Sessions

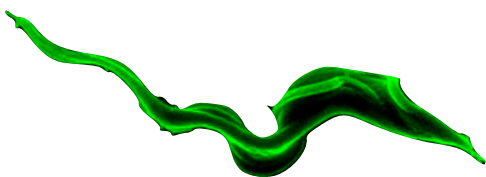

Host-Parasite Interactions; Genomic & Evolution; Gene Expression of Surface Proteins; Cell Biology; Epidemiology and Population; Genetics Biochemistry & Metabolism; Immunology and Novel Drug Therapies

Invited Speakers

Prof. Keith Gull,
Prof. Markus Engstler,
Prof. Gloria Rudenko,
Dra. Eva Gluenz, Dr. Martin Llewellyn, Dra Luisa M Figueiredo,
Prof. Mark Carrington,
Prof. Jean-Claude Dujardin,
Prof. Dolores Gonz(alez)-Pacanowska,
Prof Mark Field

This meeting is for scientists working with trypanosomatids from basic research in molecular and cellular mechanisms to applied drug development. It will be a great opportunity to present recent research, exchange ideas and make connections. Talks will be selected from submitted abstracts and we encourage early career researchers specially to apply

African Trypanosomes

American Trypanosomes

Leishmania
