- This collection aims to promote the work of women scientists across all fields of parasitology. Please note to be considered for this collection, the first or last author must be a researcher who identifies as a woman.
- The scope of the collection aligns with that of the journal Parasitology Research. We will cover the latest developments in parasitology across a variety of disciplines, including biology, medicine, and veterinary medicine.
- Original research, review articles, and short communication articles are welcome.
- Please feel free to reach out directly to the Publisher or lead Guest Editor with any questions.
